

Smart Badge SB1

Durable — built for everyday use

A true enterprise product, built to handle everyday use like drops, spills, dust, heat and cold.

Easy to read — everywhere

The three-inch E Ink® Pearl display is easy to read in virtually every lighting condition.

Easy 'touch' navigation

Finger-style navigation eliminates the need for a stylus and supports a gloved hand.

Built for sharing — no need to assign devices

Workers can simply log in at the start of a shift to access their personal task list and messages.

Customizable bezel

Pick your color and add your logo to promote your brand and enable customers to instantly identify your associates.

Your data is safe and secure

The data resides on servers instead of the device, simplifying application development and eliminating the risk of data theft.

Business-class push-to-talk

At the press of a button, users can talk to other workers who are carrying a SB1 or mobile computer.

Enterprise bar code scanning

Omni-directional scanning, an integrated aimer, LED and beeper make scanning a breeze — just point and shoot, even if bar codes are dirty, damaged or poorly printed.

Give every associate the tools they need to improve customer service and productivity with SB1 Smart Badge.
